## **Teaching and Learning Policy**

### **Introduction**

At South Stoke Primary School we believe in the concept of lifelong learning and the idea that both adults and children learn new things every day. We maintain that learning should be a rewarding and enjoyable experience for everyone; it should be fun.

Through our teaching we equip children with the skills, knowledge and understanding necessary to be able to make informed choices about the important things in their lives.

We believe that appropriate teaching and learning experiences help children to lead happy and rewarding lives.

### **Aims and objectives**

We believe that people learn best in different ways. At our school we provide a rich and varied learning environment that allows children to develop their skills and abilities to their full potential.

Through our teaching we aim to:

- enable children to become confident, resourceful, enquiring and independent learners;
- foster children's self-esteem and help them build positive relationships with other people;
- develop children's self-respect and encourage children to respect the ideas, attitudes, values and feelings of others;
- how respect for all cultures and, in so doing, to promote positive attitudes towards other people;
- enable children to understand their community and help them feel valued as part of this community;
- help children grow into reliable, independent and positive citizens.

### **Effective Learning**

Research tells us that people learn in many different ways, and respond best to different types of input (visual, auditory and kinaesthetic); we must therefore deliver teaching in different ways to address the needs of all our learners.

We take into account the different forms of intelligence (e.g. mathematical/logical, visual/spatial, interpersonal, musical) when planning our teaching.

We ensure the best possible environment for learning by developing a positive atmosphere in which pupils feel safe and feel they belong, in which they enjoy being challenged, but in which they enjoy learning and develop resilience, and know that they will succeed.

All teaching will be structured to maximise learning opportunities, and lessons will be planned in accordance with the following principles:

- 1) Teaching should build on previous learning;
  - it should give pupils the 'big picture' of the lesson;
  - the teacher should explain the learning objectives, and why the lesson is important;
  - the children will understand what they need to do to be successful;
- 2) A lesson should be presented in a range of styles;
  - it should allow opportunities for the pupils to build up their own understanding through various activities;
  - it should allow opportunities for the children to review what has been learnt;
  - it should have built-in opportunities for feedback to the children, celebrating success and reviewing learning strategies;
  - it should have the opportunity for children to self-assess;
  - the teaching should indicate what the next step in the learning will be.
- 3) Effective, personalised learning is recognised by offering different experiences within the lesson. These could include:
  - investigation and problem-solving;
  - research and discovery;
  - group work;
  - pair work;
  - independent work;
  - whole-class work;
  - asking and answering questions;
  - responding to feedback and editing prompts;
  - use of appropriate technology;
  - fieldwork and visits to places of educational interest;
  - creative activities;
  - watching extracts and responding to musical or web-based material;
  - debates, role-plays and oral presentations;
  - designing and making things;
  - participation in athletic or physical activity.

### **Effective Teaching**

When teaching we focus on motivating the children and building on their skills, knowledge and understanding of the curriculum, so that they reach the highest level of personal achievement.

We use the school curriculum long term plan to guide our teaching. Teachers make ongoing assessments of each child's progress, and they use this information when planning their lessons. It enables them to take into account the abilities of all their children.

Our prime focus is to develop further the knowledge and skills of all our children. We strive to ensure that all tasks set are appropriate to each child's level of ability.

When planning work for children with special educational needs, we give due regard to information and targets contained in the children's SEN pupil profiles or Education, Health and Care Plans. Teachers modify teaching and learning as appropriate for children with disabilities.

We value each child as a unique individual, and teachers are familiar with the relevant equal opportunities legislation covering race, gender and disability. We will strive to meet the needs of all our children, and to ensure that we meet all statutory requirements related to matters of inclusion.

We set academic targets for the children in each academic year and we share these targets with children and their parents. We review the progress of each child throughout the year and agree the next steps with the child.

We plan our lessons with clear learning objectives and we take these objectives from the National Curriculum. Our lesson plans contain information about the tasks to be set, the resources needed, and the way we assess the children's work. We evaluate all lessons so that we can modify and improve our teaching in the future.

Each of our teachers makes a special effort to establish good working relationships with all children in the class. We treat the children with kindness and respect. We recognise that they are all individuals with different needs, but we treat them fairly, and give them equal opportunity to take part in class activities.

All of our teachers follow the school policy with regard to behaviour expectations and classroom management. We set and agree with children the class rules and we expect all children to comply with these rules that we jointly devise to promote the best learning opportunities for all.

We praise children for their efforts and, by so doing, we help to build positive attitudes towards school and learning in general. We insist on good behaviour at all times; but when children make poor choices about their behaviour, we follow the guidelines for sanctions as outlined in our school behaviour policy.

We ensure that all tasks and activities that the children do are safe with risk assessments reflecting the task's requirements.

When we plan to take children out of school, we follow a strict set of procedures to ensure safety: the venue is visited, risk assessments are completed, and various permissions are obtained. We inform parents or carers, and obtain their permission, before the visit takes place.

We deploy learning assistants and other adult helpers as effectively as possible. Sometimes they work with individual children and sometimes they work with small groups. Our adult helpers also assist with the preparation and storage of classroom equipment.

Our classrooms are attractive learning environments. We change displays at least once a term, so that the classroom reflects the topics studied by the children. We ensure that all children have the opportunity to display their best work at some time during the year.

All classrooms have a range of dictionaries and of both fiction and non-fiction books, as well as displays relating to English and Maths.

We also use displays as learning prompts for the children. We believe that a stimulating environment sets the climate for learning, and that an exciting classroom promotes independent use of resources, which results in high-quality work by the children.

All our teachers reflect on their strengths and weaknesses and plan their professional development needs accordingly. We do all we can to support our teachers in developing their skills, so that they can continually improve their practice.

We conduct all our teaching in an atmosphere of trust and respect for all.

### **The Role of Governors**

Our governors determine, support, monitor and review the school policies on teaching and learning.

In particular they:

- support the use of appropriate teaching strategies by allocating resources effectively;
- ensure that the school buildings and premises are best used to support successful teaching and learning;
- monitor teaching strategies in the light of health and safety regulations;
- monitor how effective teaching and learning strategies are in terms of raising pupil attainment;
- seek to ensure that staff development promote good quality teaching;
- monitor the effectiveness of the school's teaching and learning policies through the school self-review processes. These include reports from subject leaders and the annual headteacher's report to governors as well as a review of the in-service training sessions attended by our staff.

### **The Role of Parents and Carers**

We believe that parents and carers have a fundamental role to play in helping children to learn.

We do all we can to inform parents and carers about what and how their children are learning by:

- holding parents' evenings to explain our school strategies for teaching English, Maths and mental health education;

- sending information to parents about what is being studied, celebrations of achievements, learning support tips
- regular reports to parents in which we explain the progress made by each child and indicate how the child can improve further;
- explaining to parents how they can support their children with homework.

We believe that parents and carers have the responsibility to support their children and the school in implementing school policies.

They can support their child's learning by:

- ensuring that their child has the best attendance record possible;
- ensuring that their child is equipped for school with the correct uniform and PE kit;
- do their best to keep their child healthy and fit to attend school;
- inform school if there are matters outside of school that are likely to affect a child's performance or behaviour at school;
- promote a positive attitude towards school and learning in general;
